

Deep Learning

DEEP LEARNING

- Pytorch
- Linear Regression
- Logistic Regression
- Optimizers
- Image Classification
- Model Training
- Convolution Neural Network
- Data Augmentation
- Transfer Learning
- Generative Adversarial Network
- Sequential Data
- Recurrent Neural Network
- Long Short Term Memory
- Application on sequential network

Key Features :

- Flexible Timings
- One to One Mentoring
- Resume Building
- Real World Projects
- Industry Mentors
